Regional Work Plan Overview

1. Homelands Housing and Infrastructure Program

The 2022-23 Federal Budget released on 25 October 2022 provided \$100 million over two years, (\$25 million in 2022-23 and \$75 million in 2023-24) to address urgent housing and infrastructure needs across NT homelands. The funding is being delivered through a new Federation Funding Agreement with the NT Government.

The NT Government has established the Homelands Housing and Infrastructure Program (HHIP) to facilitate the investment.

The HHIP is managed through the Department of Territory Families, Housing and Communities (TFHC), however decisions regarding planning, project selection and implementation are overseen by the Joint Steering Committee (JSC), which includes the following members:

- Central Land Council (CLC)
- Tiwi Land Council (TLC)
- Anindilyakwa Land Council (ALC)
- Northern Land Council (NLC)
- Aboriginal Housing NT (AHNT)
- Australian Government (AG)
- Northern Territory Government (NT Government)

2. Regional Work Plan – Overview

The JSC has agreed that Regional Work Plans will be developed by the NT Government in partnership with land councils and AHNT.

Regional Work Plans will set out key regional priorities regarding housing and infrastructure needs.

Plans will guide the allocation of \$54 million (2023-24) and provide the basis for potential future project prioritisation, should additional funding be identified.

The JSC has endorsed the following investment principles to guide project selection in 2022-23:

- Homelands with a population over 50 persons (including the clustering of smaller connected homelands);

- Housing and infrastructure that is in average/poor condition and requires investment beyond regular repairs and maintenance;
- Homelands with existing access to education, and other services;
- Homelands within proximity of a regional community – in recognition that homelands can reduce pressure on housing and other resources; and
- Works that respond to key Homelands Housing and Infrastructure audit findings.

3. Regional Work Plan 2022-23

In 2022-23, the following works were delivered through a \$25 Million Rapid Response and distributed as follows:

- \$1.25 million administration costs (5%);
- \$5.2 million Housing and Infrastructure Upgrade Program in Utopia;
- \$4.3 million NT wide initiatives to improve water, power and sanitation for all funded homelands; and
- \$14.25 million targeted investment into selected homelands which was distributed through four Northern Territory Land Council Regions.

ALC Region

- Bartalumba Bay and Little Paradise Waterline \$0.25m
- Bartalumba Bay housing upgrades \$0.55m
- Thompson Bay housing upgrades \$0.25m

TWL Region

- Water assessment Paru \$0.25m

CLC Region

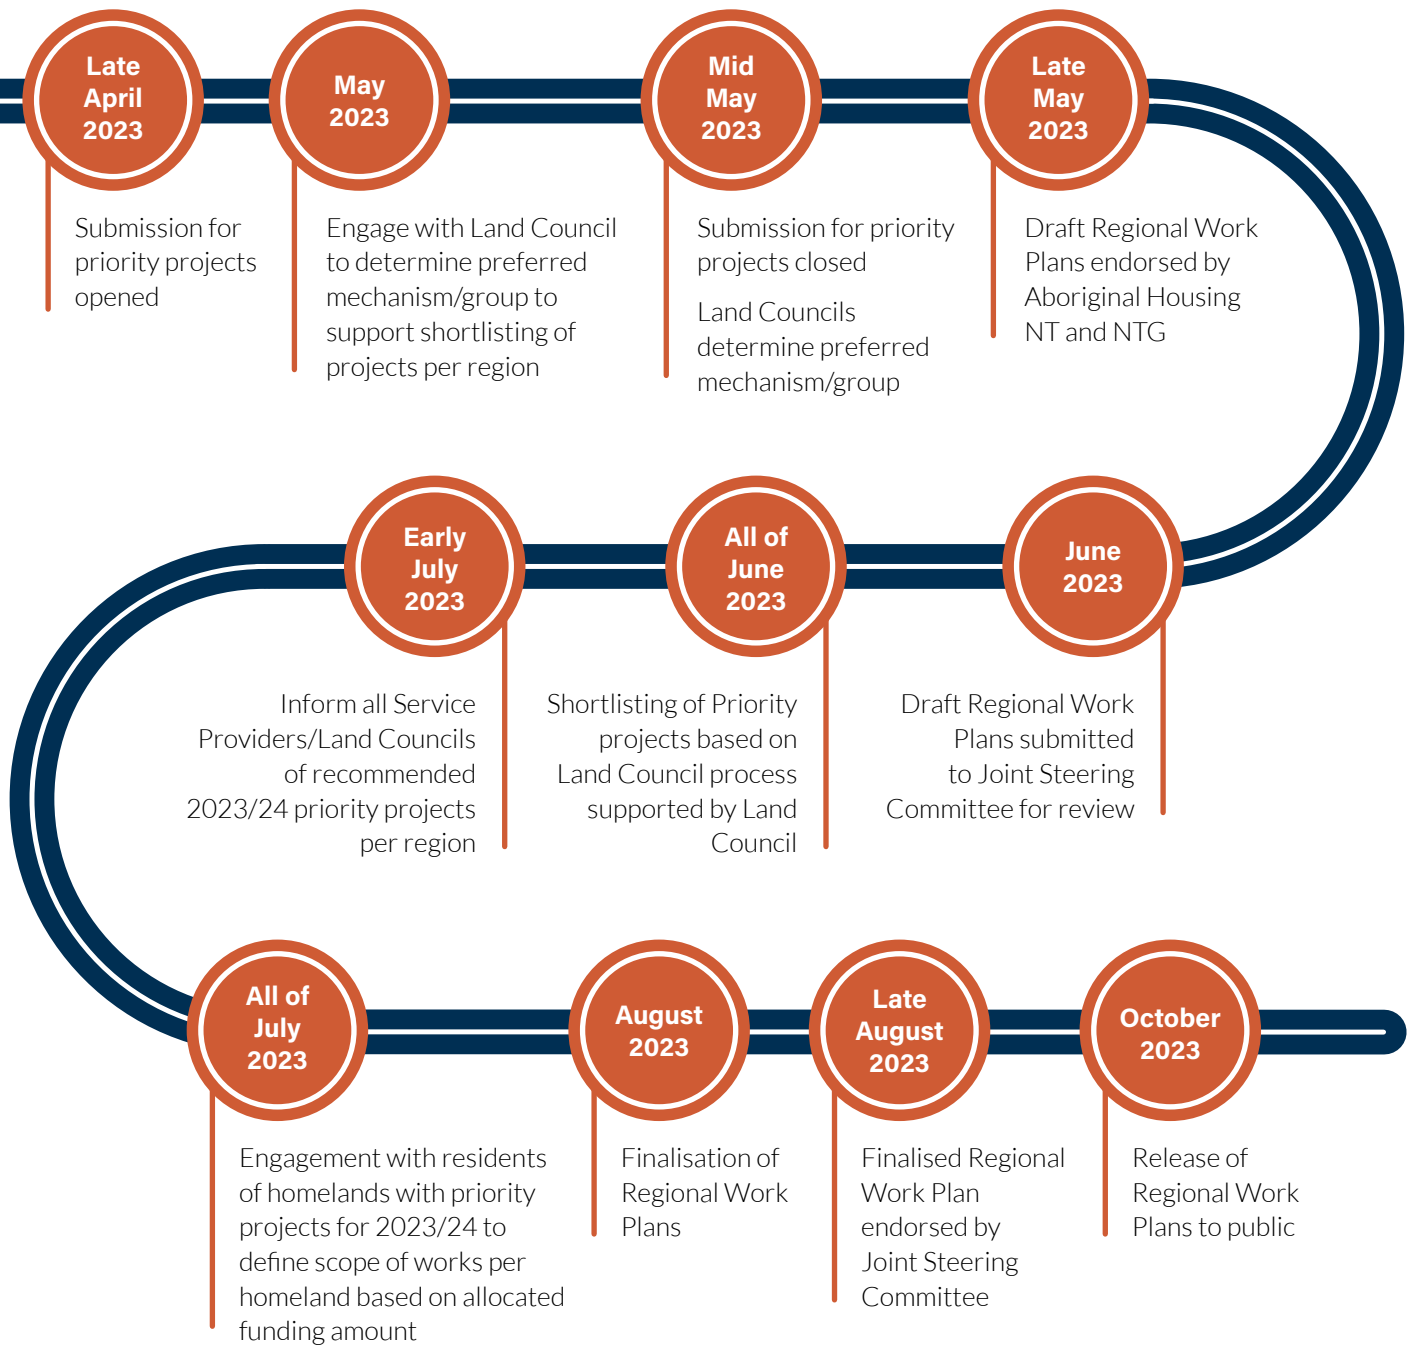

- Western Desert cluster \$6.5m

NLC Region

- Rockhole \$6.5m

4. Regional Work Plan 2023-24– Development Process

Timeline for the development of regional work plans is set out below:

Whilst the process for each Regional Work Plan has been tailored to suit local governance structures, JSC members have generally performed the following roles:

Land councils

- Develop principles to guide investment decisions; and
- Engage with Traditional Owners, Councillors and homeland service providers to determine priority projects.

AHNT

- Engage with homeland service providers to determine key housing and infrastructure issues and priorities.

NT Government

- Provide background information regarding housing and infrastructure on homelands, including any capital upgrades completed or underway; and
- Assist in the coordination of the Regional Work Plans.

5. Regional Work Plan 2023-24 - Funding Allocations

The allocation of the \$54 million (2023-24) between land council regions has been guided by the proportion of funded dwellings in each land council region:

Region	Funded Dwellings	Portion of \$54 M	Funding
Northern Land Council	789	54%	\$29,170,000
Central Land Council	620	42%	\$22,670,000
Anindilyakwa Land Council	47	3%	\$1,620,000
Tiwi Land Council	19	1%	\$540,000
TOTAL	1475	100%	\$54,000,000

Anindilyakwa Land Council (ALC) and Tiwi Land Council (TLC) do not require a Regional Work Plan. As smaller, stand-alone land councils with unique housing arrangements, ALC and TLC will be provided with funding in 2023-24 to put towards identified priorities. This approach will reduce the administrative burden and allow NT Government and AHNT to focus on more complex decision-making processes required to drive works in the Central Land Council and Northern Land Council regions.

Central Land Council – Regional Work Plan 2023-24

6. Stakeholders

6.1 Central Land Council (CLC)

The CLC has statutory functions to protect the rights and interests of Aboriginal people across more than half of the Northern Territory's land mass. Through an elected representative Council of 90 community delegates, the CLC represents the interests and aspirations of approximately 20,000 traditional landowners and other Aboriginal people residing in its region. The CLC advocates for constituents on a wide range of issues to ensure families continue to thrive on their land. Housing and homelands has long been an advocacy priority for the CLC, reaffirmed by delegates at the full Council at Kalkarindji in August 2022.

The CLC works hard to support its constituents to live on their homelands, which is fundamental for the physical and spiritual health of Aboriginal people and culture. As at July 2023, there are 158 homelands (Appendix A) eligible for funding under the NT Government's Homelands Services Program in the CLC region. Most dwellings on homelands are decades old, as is the supporting infrastructure.

In November 2022, the CLC established a Homelands Reference Group as a forum for consultation about issues affecting homelands, and including decision-making for allocation of HHIP funding in the CLC region. The Homelands Reference Group comprises one member from each of the CLC regions, nominated by the CLC regional delegates.

6.2 Aboriginal Housing NT (AHNT)

AHNT is the peak body for the NT Aboriginal Community Controlled Housing Sector - including homeland and town camp service providers. AHNT advocates strongly for the returned control of housing development and management to Aboriginal people, their organisations and communities, and for the decentralisation of housing and homeland service delivery back to Aboriginal community-control.

AHNT works closely with the Northern Territory and Australian governments, land councils, and other key partners to help build capacity and provide advocacy for the Sector who currently provide housing and housing-related services to around 10,000 Aboriginal Territorians, living in around 2,426 dwellings, across 394 homelands, and 43 town camps and community living areas across the NT.

7. Investment Principles

The CLC full Council resolved that decisions about funding allocations through the HHIP should be a shared decision between the NT Government and the CLC.

The Homelands Reference Group met for two days in Alice Springs in early August to determine the shortlist of projects for funding through the \$22.68 million allocation for the CLC region.

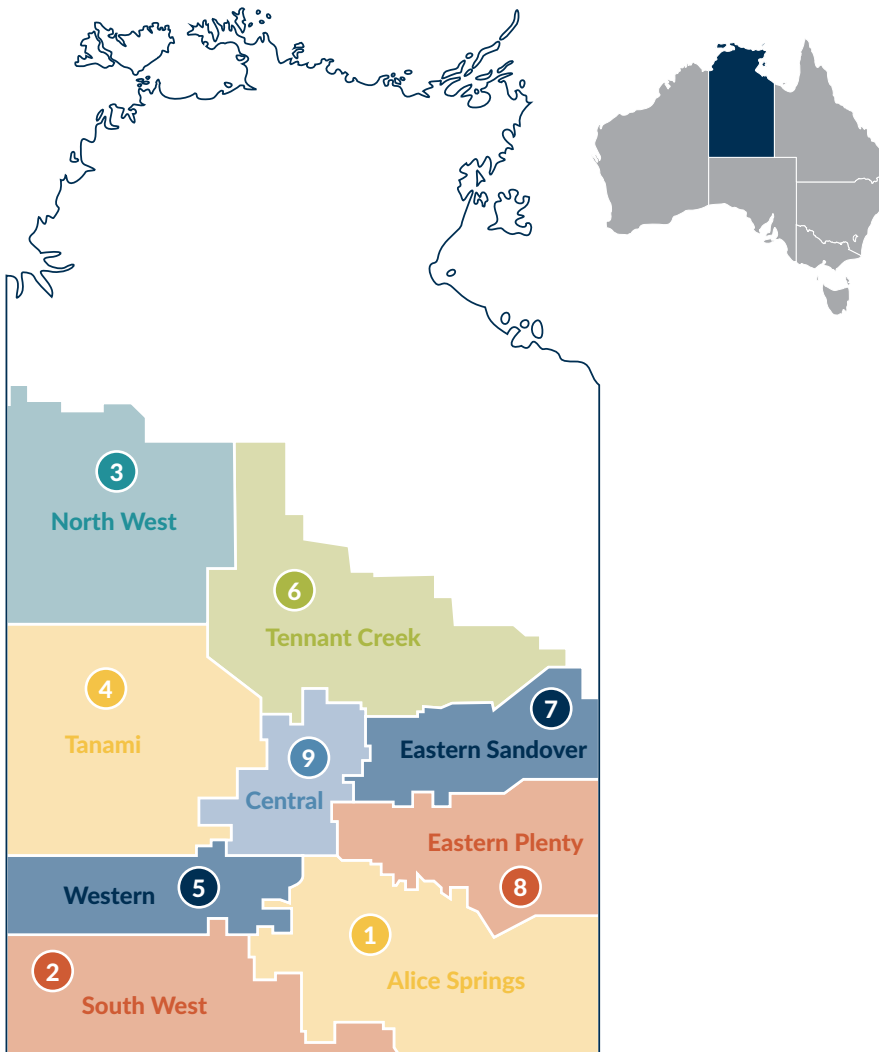

The group was provided with a 'pipeline' list of proposed Priority Projects prepared by the NT Government, in consultation with Homelands Service Providers, AHNT, CLC and the Barkly Aboriginal Alliance.

In line with principles endorsed by the CLC's Executive, the Group's decision-making was informed by regional equity, need and fairness, as well as value for money and capacity to deliver (acknowledging the limited funding and short timeframes for project delivery).

Decisions were made based on CLC regions, rather than NT Government regions.

To support informed decision-making, Homelands Reference Group members were provided with:

- Terms of reference and an agreed process for managing Conflict of Interest;
- Clear advice on the timelines for decision-making and final decision-making authority;
- Requirements by the Commonwealth and NT Government in relation to the expenditure, including that the investment is for funded homelands only, for substantial work to fix housing and essential infrastructure, and not for new houses (unless a dwelling is Beyond Economic Repair);
- Advice on the scale of funding available now relative to need across the region;
- Clear information about how the 'pipeline' priority project list of Priority Projects was developed;
- Suggested principles that could inform prioritisation, and advantages and disadvantages of the different options.
- Sufficient time to make their decisions.

8. The Homelands Housing and Infrastructure Audit

In May 2022 the NT Government commissioned an audit of 100 NT funded Homelands across the Northern Territory.

The existing condition of houses, water supplies, electricity supplies, sanitation services and municipal assets was assessed in 20 Homelands in each of the five NT regions (Central Australia, Barkly, Big Rivers, Top End and East Arnhem).

The key recommendations from the audit were considered to assist final development of the Regional Work Plans.

9. Central Land Council Work Plan - Priority Projects for 2023/24

The following 2023-24 priority projects have been selected by the CLC, in partnership with AHNT and NT Government, in line with agreed principles. One page summaries for each project are at Appendix B.

The scope of works described in the Work Description are indicative only. Final works will be agreed in consultation with residents.
